**Coalition Against Insurance Fraud**

**ADVOCACY * INFORMATION * OUTREACH**
Introduction

This guide will help you get the most of your membership in the Coalition Against Insurance Fraud. It contains information about the Coalition, and ideas and information on how to maximize the benefits of your Coalition membership. The Coalition’s website www.InsuranceFraud.org also provides access to fraud information and links to member websites.

Our history

The Coalition was founded in 1993 by 17 organizations representing consumers, insurers and government agencies. They joined together to combat insurance fraud and increase their impact as diverse organizations united against this crime. The Coalition works in four areas: Legislative & Judicial, Public Awareness, Research and Collaboration. The Coalition has grown to 290+ organizations, and remains a leader in fighting insurance fraud. The organization’s diverse membership of consumers, government, academia and industry gives a high degree of credibility and influence with legislators, regulators, media, courts and the public. This unique partnership is a hallmark of our success over the years.

Mission statement

Leveraging the combined energy and resources of consumers, government organizations and insurers, the Coalition Against Insurance Fraud will foster an environment and forum where collaboration can thrive to:

1. Combat all forms of insurance fraud,
2. Reduce costs for consumers and insurers, and
3. Promote fairness and integrity of the insurance system.

Objectives

Our mission is fulfilled by:

- Educating and increasing awareness among consumers, government organizations, insurers and other stakeholders about the scope and its impact. In this way, we can better help
  1. lower tolerance of fraud, and
  2. encourage and motivate greater engagement in developing and implementing solutions.

- Advocating laws, regulations and policies that help detect, prevent, deter and prosecute insurance fraud, and seeking appropriate remedies. This will be done through efficient, effective and practical initiatives.
Serving as the preeminent source of insurance fraud information and expertise, and by conducting research to promote and support more effective and efficient anti-fraud initiatives and activities.

- Strengthening and expanding the Coalition to effectively coordinate and engage more individuals and organizations in combating insurance fraud.

Board of Directors and Membership Meetings

The Board of Directors meets each year in June and in December to set Coalition policy and initiatives. Major policy decisions to date include approving model legislative bills dealing with insurance-fraud statutes, fraud bureaus and automobile pre-insurance inspection; filing *amicus* legal briefs; and taking strong positions on important legislation.

The Board meetings coincide with the twice-yearly membership meetings, to which all members are invited. The meeting also includes trend reports and presentations by staff, committees and a variety of noteworthy experts about major anti-fraud issues. Member organizations are asked to send up to three representatives to the meetings. While there is no fee to attend, all attendees must register online in advance. The December membership meeting is the Coalition’s annual meeting. The next year’s budget is finalized and officers are elected.

The Board of Directors includes charter members and other Board members. Each Board member appoints a primary representative and an alternate. Member organizations may change representatives at any time. The Board seeks to have equal representation between for-profit and nonprofit organizations. The Board operates under Robert’s Rule of Order, except when policy decisions are developed through consensus instead of majority vote. The Board and Coalition committees also are governed by antitrust guidelines adopted previously by the Board.

Standing agenda items for each Board meeting include reports by the treasurer on the financial condition of the organization, plus reports by major committees and task forces on their recent activities. Members are encouraged to share their organizations’ new anti-fraud activities during a special “organizational update” segment usually held at the end of each meeting.

Members wishing to propose new projects should bring their ideas to the appropriate committee chair or the executive director. They also are encouraged to float ideas and get Board feedback during the “new business” segment of the membership meeting.

Committees and Task Forces

Coalition committees and task forces work with staff to execute the policies and programs established by the Board of Directors. Membership on committees and task forces is open to all Board members. Non-Board members may also join committees and task forces at the invitation of the Board or committee.
Executive Committee
The Executive Committee provides general oversight of operations, including finance, membership and staff performance. Committee members also include the four elected officers and up to eight others appointed by the Board. There must be equal representation between for-profit and public-interest members. Meets at least quarterly.

Staff liaison: Matthew Smith

Government Affairs Committee
The Government Affairs Committee recommends legislative and regulatory policy to the Board, drafts and amends model bills, oversees state and federal legislative strategy, and coordinates the work of task forces. The committee also helps organize state coalitions to work on legislative issues.

Staff liaison: Brent Walker

Legal Affairs Committee
The Legal Affairs Committee includes representatives of a select group of law firms around the U.S. that have expertise on legal issues dealing with fraud. The committee advises the Executive Committee and board on emerging legal trends that can impact fraud and anti-fraud solutions. Individual member-firms also assist with drafting amicus briefs filed by the Coalition.

Staff liaison: Matthew Smith

Amicus Review Committee
The Amicus Curiae Committee reviews requests from members and other entities for the Coalition to file amicus briefs on important court cases impacting fraud. Decisions on whether or not the Coalition accepts a case for filing are guided by specific criteria established by the Executive Committee.

Staff liaison: Matthew Smith

Public Information Committee
The Public Information Committee recommends initiatives and policy positions to the Board about public-outreach programs. The committee helps develop public-education programs through diverse channels such as the news and social media, and members. The committee also coordinates the annual Insurance Fraud Hall of Shame and Prosecutor of the Year award.

Staff liaison: Joseph Matos
Research Committee
The Research Committee oversees research studies conducted and commissioned by the Coalition. Recent examples include public-attitude research, SIU benchmarking study and research on insurer use of technology. The committee also explores how insurance fraud is measured, varied definitions of fraud, and whether to develop new methodologies that measure fraud more accurately to provide credible estimates.

Staff liaison: Matthew Smith

Financial Review Committee
The Finance Committee provides financial analysis, advice, and oversight of the organization’s budget. Their sole responsibility is to ensure the organization is operating with the financial resources it needs to provide programs and services to the community.

Associate Member Task Force
Since the inception of the Coalition Against Insurance Fraud the concept of supporting members has been an integral part of our mission to fight insurance fraud. The leadership and staff of the Coalition are keenly aware of the importance of including our Associate, or vendor partners, in all aspects of the Coalition’s mission and strategy. This task force was created to keep Associate partners informed and engaged.

Fraud Risk Management Task Force
The Fraud Risk Management Task Force brings together members from across the Coalition to collaborate, share best practices and build awareness of the need for collective enterprise fraud risk management. The task force focuses on key areas such as fraud risk management, principles of fraud risk governance, risk assessment, control activities and program monitoring.

Life & Disability Task Force
Life & Disability Insurance taskforce is an entity created by the board of directors in 2001. The taskforce explores fraud issues specific to this line of insurance, life insurers and consumers.
